INPATIENT IMMUNIZATION MEASURE	Report thru...	Reporting Frequency	Paper Abstraction Tool Link	Specification Manual Link	ICD-10-CM Diagnosis and CPT® Code Tables	Reporting Assistance
IMM-2 Inpatients assessed and given influenza vaccination	CART to Quality Net	Quarterly	<a href="#">Imm 2- Paper Abstraction Tool</a>	<a href="#">Imm 2- Specifications Manual</a>	<a href="#">Appendix A- ICD 10 Codes &amp; CPT Tables</a>	<a href="#">Complete Inpatient Spec Manual</a>
• The flu season is defined as October 1 through March 15. Until further notice from the MT Flex Grant, report zero for quarters that do not fall within the season.						

Inpatient Due Dates:

	Q1	Q2	Q3	Q4
INPATIENT IMMUNIZATION MEASURE	CMS	CMS	CMS	CMS
IMM-2	August 15	November 15	February 15	May 15

### Non-flu season quarters:

In continuing efforts to align MBQIP with the CMS Reporting Programs, FORHP expects hospitals to follow the data collection instructions for the IMM-2 measure found in the Inpatient Specifications Manual, which indicate data is to be collected each quarter.

The IMM-2 measure is a CMS Inpatient Global Measures with an initial patient population that includes all patients discharged from acute inpatient care with a length of stay less than or equal to 120 days. Other measures are pulled from this patient population.

- The goal of MBQIP is for CAHs to be submitting data and improving quality of care on all of MBQIP core measures.
- As long as CAHs meet the minimum threshold of submission they will be considered participating in MBQIP even if they do not submit cases for IMM-2 in Q2 and Q3.
