

Patient Portal provides patients with the keys to their care. Patients will have access to view their medical records, anywhere and anytime with a computer or mobile device with an internet connection.

- View all appointments including Lab, Radiology, Rehab & Clinic
- View your personal health information including medications, provider notes, listed allergies, past appointments and patient history
- View and update demographic information - have you moved, changed insurance, rather be contacted on your cell phone? Updates can be requested through Sheridan Memorial Patient Portal
- View lab tests as soon as they are complete—compare your levels with the norm
- View radiology test results
- Request prescription renewals
- Communicate with your provider through our secure messaging system
- Become a proxy for your children under 13 to view their health record
- Become a proxy for your family member to view providers' notes, test results & more
- Find additional health information through convenient links
- Print and/or view patient education on certain diagnoses, procedures or tests

How do I sign up?

- Tell our staff in Admitting, the Nurse's station or Business Office you want to sign up
- You must present in person, be age 18 or older, have a picture ID and a valid email address
- Sheridan Memorial will confirm your identity, your email, and a security question and send you a patient portal invite to your personal email
- You must then go to your personal email, click on the invite link and follow the instructions to register
- Registration includes entering in full name, date of birth, security question and creating a username, and password

You will now be ready to view all Sheridan Memorial Patient Portal has to offer.
