

Make Your Infection Prevention Plan a Home Run

with this Vaccine and Therapeutics Playbook

Create your own infection prevention and control lineup with these tools and resources.

1 [Infection Preventionist \(IP\) Quick Guide and Checklist](#)

Know your resources, understand long-term care infection control regulations and more with this IP overview.

2 [White House Winter Playbook for Nursing Homes](#)

The White House is calling on all long-term care facility leaders to take these three important steps to protect their residents from infection.

3 [Immunization Education and Training](#)

The Centers for Disease Control and Prevention (CDC) created this landing page for immunization education and training. Continuing education credits/contact hours available for certain modules.

4 [CDC: One & Only Campaign](#)

The One & Only Campaign is a public health effort to eliminate unsafe medical injections.

5 [World Health Organization \(WHO\) Best Practices for Injections and Related Procedures Toolkit](#)

This toolkit covers elements of standard precautions related to the transmission of bloodborne pathogens through unsafe infection practices in health care settings.

6 [CDC's The Pink Book: Chapter 6](#)

This chapter summarizes best practices related to vaccine administration, a key factor in ensuring vaccination is as safe and effective as possible.

7 [Adult Immunization Schedule](#)

Health care providers can use these tables created by the CDC to determine needed vaccines based on age.

- ◆ [Vaccine Standing Consent Form](#) (part one)
- ◆ [Vaccine Eligibility Form](#) (part two)
- ◆ [Mountain Pacific adult immunization resources, flyers and fact sheets](#)

8 [Immunization Materials for Healthcare Professionals and Their Patients](#)

This website, partially funded by the CDC, includes vaccine handouts and educational materials for both health care professionals and their patients, including translations for non-English speakers.

9 [Diabetes and Adult Vaccines](#)

Learn why vaccines are especially important for people living with diabetes and which vaccines they need to stay healthy.

10 [Influenza and RSV Guide for Long-Term Care](#)

This guide provides best practice information, timely resources and guidance to help navigate seasonal viruses, including influenza and respiratory syncytial virus (RSV).

- ◆ [First U.S. Food & Drug Administration \(FDA\)-Approved RSV Vaccine](#)

11 [Pneumococcal Resource Guide: Standing Order for Administering Pneumococcal Vaccines](#)

Under these standing orders, eligible health care professionals working within their scope of practice can vaccinate residents who meet criteria listed in this guide.

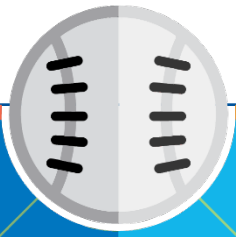

- ◆ [Pneumonia Facts Flyer](#)

12 [COVID-19 Treatments and Medications](#)

This handout helps guide clinical decisions for using COVID-19 therapeutics to prevent or treat eligible residents who have tested positive for COVID-19.

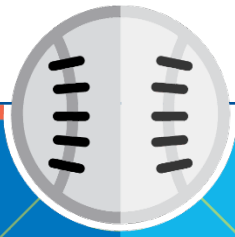

- ◆ [Administration for Strategic Preparedness and Response \(ASPR\) Possible Treatment Options for COVID-19](#)
